Drush commando's

Datase import/export

```
drush @self.production sql-dump --structure-tables-list=cache,cache_*,search_index,watchdog --
extra-dump=--no-tablespaces > production.sql --debug -y
drush sql-sync @self.production @self --skip-tables-list=cache,cache_*
drush sql-sync @self @self.production
drush sql-dump > db.sql
drush @self.production sql-dump > production.sql
drush @self.production sql-dump > production.sql;drush sql-cli < production.sql;drush cr
drush sql-drop -y
drush sql-cli < db.sql
(GEEN .gz files dus niet gezip)
```

Watchdog

```
drush ws
drush watchdog-show
drush ws 2824
drush ws --extended
drush ws --severity-min=Warning
drush ws --type=php
drush watchdog:show-one 2824
drush wd-one 2824
drush watchdog:delete all
```

Content import/export (bv canvas pagina's)

```
ddev drush content:export canvas_page 11 --dir=../content-exports

drush content:import --folder=../content-exports
```

Files import/export

```
drush rsync @self.production:%files/ @self:%files
drush rsync @production:private @self:../
```

Drush algemeen

```
drush status
drush @self.production status
drush entup
drush locale:update
drush pm:security
drush wd-show
drush wd-del all -y
drush cc drush

```

```
drupal config:import:single --file="language.entity.nl.yml" --directory="../config/sync"
```

webform: update external libraries for webform:

```
drush webform:libraries:download
```

Drupal commando's

```
drupal site:mode dev  
drupal site:mode prod  
drupal config:export --directory="config/sync/test" --remove-uuid --remove-config-hash --  
optional-config=yes  
drupal config:import --directory="../config/sync"  
drupal settings:set application.language nl
```

Nieuw hash_salt genereren:

```
drush eval "var_dump(Drupal\Component\Utility\Crypt::randomBytesBase64(55))"
```
