# Commando's

```
SELECT name, mail, DATE_FORMAT(CONVERT_TZ(FROM_UNIXTIME(login), 'UTC', '+00:00'), '%d/%m/%Y %H:%i:%s') AS 'last_login' FROM `users_field_data` ORDER BY login DESC;
```

```
mysqldump -u [user name] -p [password] [options] [database_name] [tablename] > [dumpfilename.sql]
```

```
mysqldump -u user_name -p database_name > backup.sql
```

```
ssh sshuser@sshhost "mysqldump -u user_name -p database_name | gzip -9" > dbbackup.sql.gz
```

```
SET GLOBAL default_password_lifetime = 0;
```

```
ALTER USER 'root'@'localhost' PASSWORD EXPIRE NEVER;
```

```
UPDATE mysql.user SET Password=PASSWORD('Br@nd00zl3d') WHERE User='root';
```

```
SET PASSWORD = PASSWORD('Br@nd00zl3d');
```

```
ALTER USER 'root'@'localhost' IDENTIFIED BY 'Br@nd00zl3d';
```
