

Bestaande patch file toepassen

Patch file lokaal testen zonder via composer te moeten

patch file eerst opslaan in root van project (niet de web folder), commando uitvoeren vanuit root folder:

Drupal core patch:

```
git apply -v --directory=web 3061782-9.patch
```

Drupal module patch:

```
git apply -v --directory=web/modules/contrib/media_pdf_thumbnail 3061782-9.patch
```

```
git apply --check -v --directory=web/modules/contrib/views_entity_form_field 3061782-9.patch
```
