

Installatie en gebruik

```
ddev add-on get ddev/ddev-drupal-contrib  
ddev restart  
ddev composer require --dev squizlabs/php_codesniffer drupal/coder  
ddev phpcs -i
```

You should see something like:

The installed coding standards are PEAR, PSR1, PSR2, PSR12, Squiz, Zend, Drupal, DrupalPractice, VariableAnalysis and SlevomatCodingStandard

phpcs resultaat bekijken van een file:

```
ddev phpcs  
web/modules/contrib/views_entity_form_field/src/Plugin/views/field/EntityFormField.php
```

Toepassen op een file:

```
ddev phpcbf  
web/modules/contrib/views_entity_form_field/src/Plugin/views/field/EntityFormField.php
```
